Dear Mr & Mrs Green,

We want to say a big thank you for your generous continued support of WaterAid. Your £ 1,000.00 donation will help us transform the lives of vulnerable communities around the world with clean water, decent toilets and good hygiene.

At WaterAid, we know that when a community gets clean water for the first time, it creates a powerful ripple. It saves lives and improves people's health, education and livelihoods. Clean water means babies surviving, children thriving and the community living healthier, happier, more fulfilling lives.

But don't take our word for it, take Mary's! WaterAid have been working in Kazungula, Zambia to reach health centres with access to water, sanitation and hygiene.

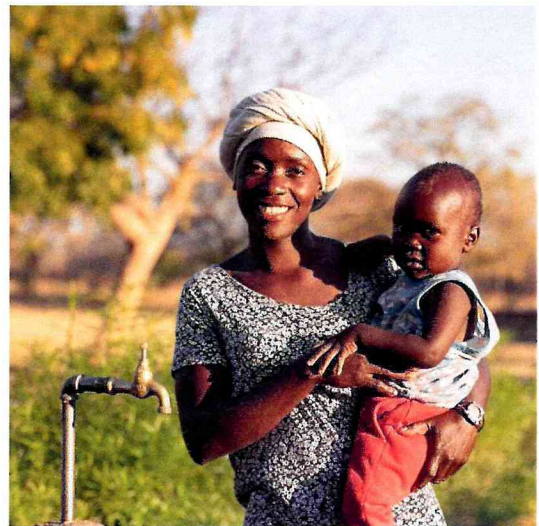

Mary recounts the transformational change that this access has had when she was giving birth to her son, Chileshe:

"Bringing clean piped water to our clinic has changed my life. As a mother, I gave birth to my youngest son, Chileshe, from there. It is clean and very conducive. We have our toilets and showers inside and a postnatal area where we rest after delivery. This is not the way it used to be before the project was started. There is privacy and dignity when I am accessing services."

All the best and thank you once again,

Xavier Hussein
